Ph.D	2018	BAGHDAD	EFFECT OF HESPERIDIN SUPPLEMENTATION TO THE DIET ON PRODUCTION , PHYSIOLOGICAL AND REPRODUCTIVE PERFORMANCE OF IRAQI NATIVE CHICKENS

Scientific degree			
Scientific title	date	No. and date the order n of the university	Version
Assistant Lecturer	21/4/2014	4388 in 14/5/2014	AL-Muthanna University
Lecturer	12/9/2018	193 in 10/1/2019	AL-Muthanna University
Assistant Professor	25/10/2021	2021/10/25 in 8063	AL-Muthanna University

Researches

Alpha.	Title of Research	Year	Name of Journal	Volume	NO.
1	The effect of diet supplementation with different levels of cumin seed oil (<i>cuminum cyminum</i>) on some production sand traits of broiler ckickens	2014	JMAC	2	1
2	The effect of supplementation with saccharomyces cervisia yeast on broiler performance readed floor and cage rearing system	2012	JMAC	1	1
3	Trading broiler carcass act in AL-muthanna province	2011	URUK	4	2
4	The effect of Hesperidin added to fodder on the productive characteristics of domestic chickens	2018	Al - Muthanna Journal of Agricultural Sciences	6	4
5	Study the qualitative, external and internal characteristics of the eggs of four species of poultry bred in Iraq	2018	Al - Muthanna Journal of Agricultural Sciences	6	1
6	Effect of Hesperidin added to the diet in physiological traits and sex hormones of males and domestic chickens	2019	Plant Archives	19	1
7	Effect of Hesperidin added to fodder on fertility and hatching characteristics of domestic chickens	2018	Al - Muthanna Journal of Agricultural	6	1
8	Effect of feed limestone relief early agein productive and immune traits of the broiler	2019	Biochemical and cellular Archives	19	2
9	The Effect of Feather Color and Sex on The Physiological Characteristics of Domestic Chickens	2021	Earth and Environmental Science		
10	Effect of Chia Seeds Water Extract on Some Physiological Traits of Broiler	2021	Earth and Environmental Science
